FLORIDA CORN IS AMONG THE FINEST

Mr. Gordon S. Scott brought to the Star office this morning two ears of corn grown by the Clark-Ray-Johnson company of Martel. One ear contains 22, the other 18, rows of long, thick, solid grains, each ear being ten inches in length. These would be considered good ears anywhere, and are fair samples of the corn Clark, Ray and Johnson and many other Marion county farmers, are raising. This part of Florida doesn't need to take a back seat for any part of the country in farming.
